1. INTRODUCTION

The Institute of Computing (IoC), formerly known as Institute of Information Technology (IIT), is one of the oldest and largest teaching institute at Kohat University of Science and Technology (KUST). The institute offers various undergraduate and graduate degrees, certification programs in addition to provides trainings and services to other departments at the campus. The undergraduate programs offered are Bachelor of Science in Computer Science and Bachelor of Science in Software Engineering. While Master of Science in Computer Science, Master of Science in Data Science (MSDS), Master of Science in Software Engineering (MSSE) and Ph.D. in Computer Science are the graduate programs. Additionally, the institute provides a variety of short-term training and instructional programs, including the Prime Minister's Kamyab Jawan Program and Cisco Networking Training.

All the degree programs are on par with the Higher Education Commission (HEC), National Computing Education Accreditation Council (NCEAC) and other universities of international repute. Apart from offering regular academic programs, the department organizes seminars, workshops, and conferences on the latest emerging topics and issues in computing on regular basis. The department enjoys the support of an outstanding team of highly qualified, experienced, and young faculty members. The existing faculty members are well qualified from reputed national and international universities. The faculty provides expertise in various specialization areas such as IT Management, Security Technologies, Network Technologies, Software Technologies, Artificial Intelligence, Data Mining, Mobile Technologies, Distributed Systems and Theoretical Computer Sciences. IoC also offers state-of-the-art facilities that include an auditorium, well-equipped lecture rooms, computing Labs, final year projects Lab, Research and Development Cell, Huawei Lab, and Web Development Cell. The latest teaching aids such as multimedia projectors, LEDs and OHPs are essential tools for students and teachers. The building of IoC is purpose-built and well equipped with all such types of essential teaching aids.

The department educates and conducts research covering wide areas of attractive educational programs for students to learn from the basics to advanced technologies related to computer science and information technology. Students are taught and groomed to become leading developers and researchers who are highly motivated and have practical, creative and management skills to drive an advanced next-generation information society in all industrial zones.

1.1. VISION AND MISSION

a. Vision Statement

To become a center of excellence for producing top-notch computer science professionals with strong computing and research skills, leadership abilities, and moral principles to meet the demands of industry and society.

b. Mission Statement

The mission of Institute of Computing is to provide student with top-notch education in computing along with cutting-edge practical skills and intrapreneurship training so that they may play a significant role in the society as well as industry through critical thinking, innovation, and research.

1.2. ACADEMIC RESOURCES

Resources	Objectives	Major Equipment
3 Computing Labs	These computing labs are used for lab work of various courses.	Computer systems with network connectivity
Classrooms	10 classrooms used by undergraduate and graduate students	Equipped with LEDs
Conference Hall	Used for seminars, presentations and other similar activities	Multimedia projector and sound system
Other facilities	Girls common room, staff meeting room, washrooms, stores	None
Incubation Center	Used for student startups and industrial linkages	Computer systems with network connectivity

1.3. FACULTY

S#	Name	Designation
1.	Dr. Amjad Mehmood	Director/ Associate Professor
2.	Dr. Shafiullah Khan	Professor (on Leave)
3.	Dr. Muhammad Hammad Hassan	Assistant Professor
4.	Dr. Jawad Ashraf	Assistant Professor (On Leave)
5.	Dr. Zeeshan Iqbal	Assistant Professor
6.	Dr. Abdul Shahid	Assistant Professor (On Leave)
7.	Dr. Saima Hassan	Assistant Professor
8.	Dr. Muhammad Altaf Khan	Assistant Professor
9.	Dr. Muhammad Irfan Uddin	Assistant Professor
10.	Dr. Shafaq Mussadiq	Assistant Professor
11.	Dr. Rabia Khan	Assistant Professor
12.	Dr. Noor Mast	Lecturer
13.	Dr. Muhammad Adnan	Lecturer
14.	Dr. Muhammad Muneer Umar	Lecturer
15.	Dr. Sana Ullah Khan	Lecturer
16.	Dr. Muhammad Roman	Lecturer (On Leave)
17.	Mr. Abdur Rehman	Lecturer
18.	Mr. Muhammad Abrar Khan	Lecturer
19.	Mr. Qadeem Khan	Lecturer
20.	Mr. Faisal Baseer	Lecturer
21.	Mr. Tahir Naeem	Lecturer
22.	Mr. Muhammad Ali Zeb	Lecturer
23.	Mr. Ilyas Ahmad	Lecturer

24.	Mr. Sajid Ullah	Lecturer
25.	Dr. Samina Amin	Lecturer (Contract)
26.	Mr. Umar Ayaz	Lecturer (Contract)
27.	Mr. Abdullah	Lecturer (Contract)

1.4. ACADEMIC PROGRAMS WITH ANNUAL INTAKES

Program	Yearly Intake
Bachelor of Science in Computer Science (BSCS)	100(open) + 100 (self)
Bachelor of Science in Software Engineering (BSSE)	50
Bachelor of Science in Cyber Security (BSCYS)	No Intake till 2025
Bachelor of Science in Artificial Intelligence (BSAI)	No Intake till 2025
Bachelor of Science in Data Science (BSDS)	No Intake till 2025
Master of Science in Computer Science (MSCS)	Varies
Master of Science in Software Engineering (MSSE)	Varies
Master of Science in Data Science (MSDS)	Varies
Ph.D. in Computer Science (Ph.D.(CS))	Varies

1.5. GRADUATE PROGRAMS WITH STARTING YEAR

Program	Starting Year
Master of Science in Computer Science (MSCS)	2006
Master of Science in Software Engineering (MSSE)	2018
Master of Science in Data Science (MSDS)	2018
Ph.D. in Computer Science (Ph.D.(CS))	2011

1.6. GRADUATE PROGRAMS DURATION

Program	Minimum	Remarks
MS(CS/SE/DS)	1.5 Years (or 3 Semesters)	4 Years (or 8 Semesters)
PhD (CS)	3 Years (or 6 Semesters)	8 Years (or 16 Semesters)

2. MS AND PHD IN COMPUTER SCIENCE PROGRAM

2.1. MS (CS) DETAILS

a. MSCS Program Structure

Program	Credit Hour	Remarks
MSCS - Core Courses	12	
MS - Elective Courses	12	CS/DS/SE Courses at MS level
Understanding Quran I & II	1 + 1 = 2	Compulsory
Conference Participation	0	Compulsory
Internal Seminar	0	Compulsory
Paper Publication	0	Optional
Research/Thesis	6	
Total	32	

b. MSCS Semester Plan

Year 1 – Semester II		
Code	Title	Credit Hours
CS615	Theory of Computations	3(3+0)
CS617	Advanced Operating Systems	3(3+0)
XX***	CS Elective – I	3(3+0)
XX***	CS Elective – II	3(3+0)
GE***	Understanding Quran – I	1(0+1)
Year 1 – Semester II

CS616	Advanced Analysis of Algorithms	3(3+0)
CS631	Advanced Computer Architecture	3(3+0)
XX***	CS Elective – III	3(3+0)
XX***	CS Elective – IV	3(3+0)
GE***	Understanding Quran – II	1(0+1)
Year 2 – Semester I ----- Year 4 – Semester VIII (max)		
Code	Title	Credit Hours
CS699	MS Research Report	6(0+6)
CS699	The same course for Research will continue to subsequent semesters until the completion.	
XX***	Any course from any program at the institute at MS level is acceptable.	

2.2. PHD (CS) DETAILS

a. PhD (CS) Program Structure

Program	Credit Hour	Remarks
Specialized Courses	9	
Elective Courses	9	
Non-Credit Courses	0	BS/MS/PhD courses
Understanding Quran I & II	1 + 1 = 2	Compulsory
Comprehensive Examination	0	

Paper Publications in Journal	0	As per HEC criteria
Conference Participation	0	Compulsory
Internal Seminar	0	Compulsory
Research/Thesis	6	
Total	26	

b. PhD (CS) Semester Plan

Year 1 – Semester I		
Code	Title	Credit Hours
